Current Location: Ranchi, Jharkhand, India

OBJECTIVE:

Aspiring Software Engineer with a strong foundation in Python, Java, and SQL. Skilled in problem-solving, data-driven insights, and collaborative development environments. Passionate about applying technical expertise. Seeking an opportunity at SITA to contribute to innovative software solutions while fostering continuous learning and professional growth.

EDUCATION:

DEGREE	Year of Passing	NAME OF INSTITUTE	UNIVERSITY/ BOARD	PERCENTAGE/CGPA
Bachelor of Science in (Information Technology)	2024	MARWARI COLLEGE UNDER RANCHI UNIVERSITY, JHARKHAND	RANCHI UNIVERSITY	8.53 CGPA
Intermediate (Class 12)	2020	MARWARI COLLEGE, JHARKHAND	JAC BOARD	48%
Matriculation (Class 10)	2018	L.A GARDEN HIGH SCHOOL, JHARKHAND	CBSE BOARD	59%

TECHNICAL SKILLS:

- **Programming Languages:** Python, Java, SQL
- **Data Analysis & Visualization:** Power BI, Ms. Excel, Data Visualization Techniques
- **Web Development:** HTML, CSS, JavaScript
- **Frameworks & Libraries:** React.js, Bootstrap, Tailwind CSS, NumPy, Pandas, Matplotlib
- **Database Technologies:** Database Management Systems (DBMS), SQL Queries, Data Warehousing Concepts
- **Software & Tools:** Git, GitHub, Visual Studio Code, Jupiter, Replit
- **Concepts:** Object-Oriented Programming (OOP), Design Thinking, Software Development Life Cycle (SDLC)

WORK EXPERIENCE:

VYZE INC, Ranchi Jharkhand   **September 2024 to Present**
Role: Technical Recruiter
Responsibilities:

- Collaborated closely with hiring managers and account managers to understand client requirements and deliver top-notch technical talent.
- Sourced, screened, and evaluated candidates through job boards (Dice, Monster, CareerBuilder), social media (LinkedIn), and internal databases.
- Handled the full recruitment life cycle: requirement analysis, sourcing, screening, scheduling interviews, negotiating rates, and closing positions.
- Worked on W2, C2C, and 1099 tax terms, ensuring compliance with US work authorization types (US Citizens, GC Holders, GC-EAD Holders, H1B, H4-EAD, EAD, OPT, etc.).
- Coordinated and scheduled interviews between clients and candidates while ensuring a smooth interview process.
- Built and maintained a pipeline of qualified candidates for current and future requirements.
- Maintained accurate documentation of candidate records and client interactions in the Applicant Tracking System (ATS).
- Followed up with candidates post-interview to maintain engagement and provide feedback.

CITC The Hub of IT, Ranchi Jharkhand   **July 2024 to August 2024**
Role: Android Developer Intern
Responsibilities:

- Assisted in the design and development of user-friendly Android applications using Java.
- Gained hands-on experience with Android Studio, XML layouts, and integrating UI components to build responsive mobile interfaces.
- Worked on implementing features such as login/registration, API integration, and local storage using SQLite and Shared Preferences.
- Conducted testing and debugging to ensure optimal performance and functionality across various Android devices.
- Collaborated with senior developers to understand app development lifecycle and followed agile methodologies for project execution.
- Participated in code reviews and contributed to improving code quality and efficiency.
- Documented project development steps and maintained version control using Git.

E-Max India, Ranchi Jharkhand   **May 2024 to June 2024**
Role: Python and Machine Learning Intern
Responsibilities:

- Gained practical experience in developing Python-based applications and implementing core Machine Learning algorithms.
- Worked on data preprocessing, feature extraction, and model building using libraries such as NumPy, Pandas, Scikit-learn, and Matplotlib.
- Assisted in training, evaluating, and optimizing machine learning models for classification and regression tasks.
- Developed mini-projects using Python and Flask, integrating ML models into web applications for real-time predictions.
- Collaborated with the team to understand real-world data problems and applied ML techniques to solve them.
- Implemented exploratory data analysis (EDA) to uncover insights and visualize trends in datasets.

PROJECTS:

E- Tourism Website (End to End) College Group Project.
Technologies: HTML5, CSS3, Bootstrap, JavaScript, PHP and MySQL
Responsibilities:

- Designed and developed interactive front-end interfaces using HTML5, CSS3, Bootstrap, and JavaScript.
- Implemented user registration, login, and authentication functionality.
- Developed backend logic using PHP to manage bookings, search filters, and user sessions.
- Integrated MySQL database for storing user data, travel packages, and booking history.
- Contributed to responsive design for multi-device compatibility.
- Collaborated with team members on system architecture and debugging.
- Created admin panel for managing users, destinations, and bookings.

Weather Forecast App (End to End)
Technologies: HTML, CSS, JavaScript, OpenWeatherMap API
Responsibilities:

- Designed the front-end interface using HTML and CSS for a clean and user-friendly experience.
- Implemented dynamic weather data fetching using JavaScript and OpenWeatherMap API.
- Enabled search functionality to get weather details of different cities.
- Handled API responses and displayed weather data with icons and formatted layout.
- Applied error handling for invalid inputs and failed API responses.
- Ensured responsiveness across various devices using media queries.

LANGUAGES:

- English (Proficient)
- Hindi (Native)
- Bengali (Beginner)

SOFT SKILLS:

- Strong Communication and Presentation skills.
- Team Collaboration and Cross-functional Teamwork.
- Problem-solving and Critical Thinking.
- Time Management and Organizational Skills.

INTERESTS & HOBBIES:

- Cricket (Play & watch)
